

## Brake Fluid

(03/30/2015 edition)

**Parts Plus DOT 3 Brake Fluid** performs a variety of very important functions in the braking system. It transmits the required power, minimizes corrosion, lubricates, controls proper seal swelling, and operates over a wide temperature range. Parts Plus DOT 3 Brake Fluid meets or exceeds the requirements of Federal Motor Vehicle Safety Standard (FMVSS) 116 DOT 3, SAE J1703 and ISO 4925. Application is any system which uses DOT 3 brake fluid.

### TYPICAL INSPECTION DATA

	API Gravity	Lbs/gallon	Dry Boiling Point (ERBP), °F	Wet Boiling Point (ERBP), °F	Viscosity cSt @ -40°C Max	Viscosity cSt @ -100°C Min	pH
Dot 3	1.05	8.75	480	290	1500	1.5	9.7

\* ERBP = equilibrium reflux boiling point
